Professional Summary

Result-oriented operations and team leadership professional with 6+ years of experience in the solar industry, progressing from front-line customer support to supervisor and interim manager roles. Skilled at building training programs and process documentation from the ground up, leading teams of up to 14 through coaching and performance management, and resolving high-risk escalations across cross-functional stakeholders. Proven track record driving measurable results, including raising a department's quality average from 75% to 90%+, clearing a \$1.2M funding backlog, and cutting an installed-not-funded queue by 54%. Deep platform expertise across CRM, communication, and solar financial/design systems (Zendesk, Intercom, Salesforce, RingCentral, DialPad, LightSpeed, Aurora, EverBright, Sunrun, GoodLeap), paired with a consistent record of being trusted to step into leadership gaps and deliver under pressure.

Education

Bachelor of Arts in Psychology, *cum laude*

Whittier College | 2019

Dean's List; Outstanding Academic Achievement in major, GPA 3.75; John Greenleaf scholarship recipient.

Diploma, General Education

Experience

Freedom Forever, LLC — Temecula, CA

Nov 2019 – March 2026

Project Support Tier II Specialist

Dec 2025 – Mar 2026

- Partnered with a colleague to design and build the Project Support team's onboarding training materials from scratch within a two-week sprint, coordinating task division, planning, and iterative feedback — delivering a structured resource that improved new-hire ramp-up and knowledge transfer.
- Facilitated onboarding of 10 team members monthly by delivering training sessions, provisioning systems access, and equipping new hires with tools and resources for role readiness.
- Co-designed a centralized OneNote knowledge hub, streamlining access to communication templates, work instructions, and standard operating procedures.

- Developed and implemented coaching strategies for project support specialists, enhancing team capabilities in managing complex projects and delivering clear customer responses in Intercom and DialPad.
- Collaborated cross-functionally with management and Tier II specialists to evaluate performance, identify improvement opportunities, and implement necessary resources.
- Coached underperforming team members by identifying improvement areas, providing structured feedback, and equipping them with resources, driving the department's quality average from 75% to 90%+.
- As part of a four-person team, personally resolved 15 of 45 high-risk post-installation solar projects with unresponsive customers, contributing to \$1.2M in secured funding.
- Conducted detailed quality audits to ensure accuracy, procedural compliance, and adherence to role requirements.
- Led biweekly meetings via Teams to communicate process updates and drive continuous team development.
- Created standardized process documentation and work instructions in Word to improve workflow efficiency and consistency.
- Handled escalated calls efficiently, finding satisfactory resolutions for both customers and the company alike.

Project Support Specialist

Jun 2025 – Dec 2025

- Managed 400+ projects through their solar lifecycle in LightSpeed, optimizing cross-functional workflows to consistently meet timeline expectations.
- Exceeded KPI metrics by 15% in reviewing 150 projects per week.
- Delivered 100% Quality across 6 months and led the region in Install Ready volume, achieving top-10 regional rankings (of up to 45 peers) in 2 of 4 months under new Impact/Quality scoring criteria.
- Directed communication between clients, the sales team, and internal departments, negotiating project solutions and aligning stakeholder objectives to guarantee consistent service.
- Streamlined the documentation process by reviewing, collecting, and proactively guiding customers through Interconnection documents, Change Orders, Contract signing, Loan Document completion, and essential documents needed to proceed with installation, inspection, or PTO.
- Delivered efficient customer support by managing 20+ inbound calls daily while coordinating 30+ outbound contacts via call, text, and email through DialPad.
- Documented all project communication in LightSpeed with precision to keep sales teams and stakeholders aligned on status, next steps, and required action items.

Regional Solutions Manager

Jun 2024 – May 2025

- Supported Sales Support Manager by coordinating team operations, communicating departmental Excel data reports, delivering key updates, and ensuring consistent adherence to deadlines.
- Designed and delivered targeted onboarding training through PowerPoint in collaboration with Quality and Training teams, training new hires on core financial and pricing strategies, including net PPW, EPC, system adders, and gross system contract pricing.
- Trained Project Support II Specialists on layout adjustments, pricing reviews, and change order procedures for Sunrun, EverBright, Enfin, PayKeeper, GoodLeap, and Credit Human, strengthening team-wide process consistency.
- Orchestrated the successful completion of 242 complex projects within 5 months by eliminating high-risk operational, financial, and technical constraints.
- Contributed to a historic funding week by sustaining \$2M+ in daily EverBright M2 payments and reducing the installed-not-funded backlog by 54% — from ~420 to 195 projects — by resolving and preventing avoidable change orders and adjusting layouts in Aurora and EverBright's portal.
- Served as the primary point of contact for team support, resolving inquiries, managing escalations, and ensuring timely issue resolution.
- Collaborated cross-functionally with branch managers to align processes, address escalated customer concerns, and provided actionable team feedback to improve operations.
- Recognized by management and clients for exceptional empathy, consistently providing compassionate guidance and effective solutions during high-stress customer interactions that supported both sales and customer satisfaction.
- Acted as interim manager for a 7-person sales support team for several weeks during a leadership transition — while continuing to manage own projects — leading management meetings on team metrics, conducting quality audits, resolving cross-branch issues, and managing escalated customer conversations.
- Led 300+ legacy solar projects acquired from Meraki through Permission to Operate (PTO) and final completion, achieving a 90% success rate by monitoring project status in LightSpeed and Asana, coordinating directly with

customers, collecting required documentation, securing signatures, and resolving completion bottlenecks on projects over a year past due.

Sales Concierge Supervisor

Nov 2022 – Jun 2024

- Managed and led a team of 14 Sales Concierge representatives, providing coaching, performance oversight, and ongoing support to drive productivity and results in Zendesk and RingCentral.
- Developed and standardized communication materials in Word, including memos and process documentation, to ensure clarity and alignment on company and departmental updates.
- Championed team member initiatives and co-developed a Dealer Support inquiries resource that cut down repetitive inquiries and improved operational throughput.
- Successfully triaged and resolved over 479 high-level escalations, achieving a 97% success rate.
- Contributed to the planning and delivery of departmental-wide and company-wide updates during monthly meetings.
- Built and managed a comprehensive coverage tracker in Excel to monitor schedules, PTO, sick leave, and no-call/no-shows, enhancing supervisor visibility and daily staffing coordination.
- Conducted onboarding interviews and facilitated offboarding conversations, supporting the full employee lifecycle with professionalism and compliance.
- Conducted weekly one-on-one meetings via Teams to support employee development, recognize achievements, address concerns, and strengthen team engagement and trust.
- Analyzed performance metrics in RingCentral to identify gaps, documented findings, and implemented targeted performance improvement plans to ensure KPI and quality compliance.
- Tapped to support development of an AI summarization tool for the company portal, delivering detailed project status reports that served as training data for the AI — managed alongside full supervisory duties.
- Maintained under-24-hour SLA across two separate queues (ABP IL Disclosure Zendesk emails and general ticketing, ~200 tickets daily) by training staff, auditing accuracy, and tracking performance via daily data reports.
- Launched a weekly 'Fun Topic Friday' initiative to foster team connection and engagement, strengthening remote team culture and cross-team rapport.

Sales Concierge Lead

Nov 2021 – Nov 2022

- Led a team of 6–8 Sales Concierge professionals, delivering ongoing coaching, performance evaluations, and day-to-day guidance to drive individual growth and team success.
- Managed escalated sales conversations, setting clear expectations and timelines while resolving issues and escalating policy violations to management and dealer compliance as needed.
- Supported multi-channel operations (chat, phone, email) in RingCentral, contributing to measurably reduced customer wait times and improved service levels.
- Conducted weekly one-on-one coaching sessions to review performance metrics, set goals, and build actionable development plans with team members.
- Partnered daily with Sales Concierge Leads and management to assess departmental performance and identify process improvement opportunities.
- Cleared an 8+ day change order backlog to under 24-hour turnaround; evaluated pricing, layout in Aurora, and system adjustment requests for feasibility and accuracy, then trained team members to maintain the SLA.

Sales Concierge II

Feb 2021 – Nov 2021

- Resolved an average of 50 Tier II escalated projects daily for the Sales Concierge team, providing clear guidance to keep work moving efficiently and minimize delays.
- Monitored real-time call queue volume in Vonage, proactively alerting the team during high-traffic periods and stepping in to assist, reducing customer wait times and maintaining service level targets.
- Served as a go-to resource for team members, answering questions, coaching on solution-focused approaches, and guiding problem resolution.
- Partnered daily with cross-functional departments to resolve sales-related issues, clear project roadblocks, and deliver timely status updates via phone and email.
- Strengthened workflow efficiency and enhanced the overall customer experience through hands-on support, cross-team collaboration, and proactive problem-solving.

- Managed high-volume inbound calls (50–80 daily) in Vonage for the sales organization, maintaining a 3–5 minute average handle time while consistently meeting performance targets.
- Served as a key point of contact for the sales team, resolving inquiries related to project status, pre-sale requirements, documentation, and utility details.
- Resolved escalated customer conversations by setting clear expectations, defined timelines, and effective solutions, ensuring efficient issue resolution.
- Applied strong critical-thinking and troubleshooting skills to resolve technical issues over the phone, enabling timely document signing and project submissions.
- Reviewed project submissions in Podio for accuracy in contract, title, and financial information to determine readiness for next steps.
- Coordinated site visits between customers, sales, and survey teams to support accurate home assessments and smooth project progression.
- Streamlined sales support workflows through a combination of operational expertise, communication, and problem-solving.
